

WORK EXPERIENCE

Product Manager

HDFC Bank

Jun 2023 – Present

Key focus area: Digital Innovation, Cloud-Based Systems, Product Lifecycle, API Integrations (KYC, GST, Bureau, Mandate), SQL & Data Analysis, Journey Optimization, Agile, JIRA, Product Vision, Cross-Functional Collaboration, GTM Strategy, Lending Platform Optimization

- Led end-to-end product lifecycle management, designing user journey maps and data flow diagrams that improved process efficiency by **12%**
- Prioritized high-impact opportunities using user stories, acceptance criteria, and analytics, enabling **3 feature launches** and a **15% faster delivery cycle**
- Integrated system APIs (Credit Bureau, KYC, PAN/Aadhaar, Digilocker), cutting validation time by **30%** and improving data accuracy
- Deployed cloud-based data platforms (Databricks) for centralized analytics, enhancing visibility and reducing reporting turnaround by **40%**
- Implemented Agile best practices, including sprint planning and daily stand-ups, achieving a **20% increase in sprint velocity** across all product development cycles, improving team efficiency.
- Mapped user personas to identify key pain points, boosting customer satisfaction by **10%** and adoption by **8%**
- Implemented SQL and Power BI dashboards to track engagement metrics, driving a **5% rise in onboarding conversion**
- Designed API-integrated architecture ensuring full backend readiness and reducing post-launch compatibility issues by **20%**
- Owned and prioritized product backlog of 50+ user stories per quarter**, aligning feature delivery with business goals; improved sprint velocity by **18%** and reduced low-priority backlog items by **25%** through data-driven prioritization
- Authored 10+ PRDs, concept notes, and Jira stories, turning strategic goals into measurable product features
- Executed nationwide feature rollouts with training modules for **5,000+ sales staff**, cutting onboarding time by **2 weeks** per trainee
- Delivered post-launch enhancements on cloud features, improving loan disbursement speed by **18%**
- Conducted user research in two quarters to identify critical pain points, resulting in **3 key product enhancements**
- Collaborated cross-functionally to streamline pre-approved loan workflows, increasing conversions by **10%**
- Enhanced user impressions by **4%** additional business growth through Agile and GTM strategies

Product Management Fellow

UPRAISED PRODUCT MANAGEMENT

Jun 2024 – Dec 2024

Key focus area: Focused on leveraging data-driven insights, user-centric strategies, and Agile collaboration to drive impactful product enhancements and optimize user engagement.

- Assessed in-depth **user research** and **data trend** analysis to identify key **challenges, opportunities**, and **critical tasks**, ensuring the focus on **solving** the most **impactful problems**
- Designed and implemented a structured approach for gathering customer feedback, contributing directly to pinpointing key areas of improvement; findings focused on redesigning user flows that solved three UX pain points

OTHER INTERNSHIP

Research Analyst

BETA INSIGTS

May 2022 – Aug 2022

- Prepared in-depth competitive landscape assessments for emerging EV companies
- Orchestrated producing an impactful **Equity research report** by conducting thorough **company-specific research**, providing valuable insights into the financial position and strategic considerations.

Senior Data Analyst

Green Point Global

Oct 2021 – Nov 2021

- Accomplished detailed analysis of Maritime Industry to increase maintenance efficiency of vessel by **18%**
- Extracted and analyzed technical data from vessel manuals, reducing operational **turn around time by 12%**

EDUCATION

Sydenham Institute of Management Studies – SIMSREE, Mumbai

Aug 2021 – Jun 2023

Masters of Business administration, Finance

Saraswati College of Engineering, Mumbai

Jul 2014 – Oct 2018

B.E. in Mechanical Engineering

SKILLS

Certifications & Training Programs:

- CSPO – Certified Scrum Product Owner, Scrum Alliance, 2025
- Machine Learning for Product Managers, Duke University
- Product Management Launchpad by Upraised
- NISM-Series-XV-Research Analyst Certification
- NISM-Series-VIII: Equity Derivative Certification

Data Analytics & Visualization Tools: SQL; Power BI; Google Analytics; Figma; Visio; Notion; Miro

Project Management Frameworks & Methodologies: Agile Frameworks; GTM Strategy Implementation; Jira for Project Tracking

Product Development Skills: Product & Domain Skills: Liability Products, Current Accounts, Deposits, Payments APIs, Lending Journeys, Opportunity Mapping, GTM Strategy, Regulatory Compliance (RBI).
